Customer Reviews

This is a really good and thorough course in the language that presents in conversational form all the major concepts: verb tenses (present, past, & future) & moods (indicative, subjunctive,

conditional, & imperative), idiomatic phrases, and other grammatical structures. It looks about equal to two college semesters of Italian (maybe three, depending on how different schools structure their language programs; it's essentially first-year Italian). I've been using this course for two weeks now and am halfway through it. I wouldn't recommend this pace, but I mention it so you can interpret what complaints I have in light of it. This course consists of 3 books: Essential, Intermediate, and Advanced, and includes a blank notebook and 9 audio CD's that correspond to the lessons in the books. There is also an online language lab for quizzing knowledge. The whole course comes in a cardboard slipcase. The lesson books are about the ideal size: lightweight paperbacks, between the size of a trade paperback and an average college textbook; they're big enough to spread out and work with, but small and light enough to use nearly anywhere. The English type is in black, and the Italian in blue, which aids learning. The course is 46 lessons in all, and seems built around language immersion, emphasizing conversational phrases and language that you might use when travelling to/studying in Italy. From this use, of course, you could go anywhere with the language. This course's grammatical explanations are clear and comprehensive, though I might want many more examples to really understand the concepts from a variety of angles and in a variety of situations. (My learning style is more analytical than intuitive, and I don't mind poring over grammar & verb charts to drink in concepts.
