# The Civil War: A Narrative: Volume 2: Fredericksburg To Meridian

a very detailed treatment. I remember perusing the book in the early 1980s and wanted to read it, but was intimidated by its size. After all, it was only one of three 2.5" thick books in the series. After watching (and re-watching) Foote's interviews in Ken Burns' "The Civil War", I became so fond of the man that I bought the whole set, both in print and in audio. The books have a permanent spot in my nearest bookshelf and the audio is in a permanent playlist on my iPhone. Volume II begins with Jefferson Davis' 1863 trip around the Confederacy to rally his constituents, and takes us through the battles of Fredericksburg, Stones River, Chancellorsville, Gettysburg, Vicksburg, Chickamauga, and Chattanooga. We lose Stonewall Jackson, see the rise of Nathan Bedford Forrest and Ulysses Grant, and witness the fall of Rosecrans and Bragg. It does not just focus on the well-known activities of the Army of the Potomac vs. the Army of N.VA, but interposes scenes from all theaters of the war as well, as the other branch of service (Navy). It's not just a military history, as we learn of such items as the infighting in both White Houses, international ramifications of the War, and the dysfunctional inflationary economies and riots in Southern cities like Richmond and Northern cities like New York. Foote is a master storyteller and his riveting and personal accounts may make the reader forget they are reading non-fiction history.
