## Customer Reviews

Among all the books written by H.H The Dalai Lama, this book is the most concise and conveys the four noble truths in a simple and easy to follow manner. It is a very good introduction for any one who is in search of peace of mind.

The most concrete, coherent, and complete "overview" of Buddhist thought as it applies in contemporary life in both the Eastern and Western worldviews. The wonderfully warm personality of His Holiness radiates throughout.

Besides offering a thorough exposition of Mahayana belief, and indeed practice, with an anything but common traversal of the Four Noble Truths by a master, in these four videos one is invited to spend a few intimate hours in the presence of the Dalai Lama, always an ennobling experience. The camera work in this film is especially fine, making of the camera one's own eyes, as it were, and lifting the hours even lighter than they already seem. With respect to another of the reviews on this

page, I found the necessary translation from the stage handled superbly, and clearly with a great deal of thought and natural reverence. In Thubten Jimpa, the Dalai Lama employs a beautifully adept translator, an interpreter not only brilliantly attuned to the words and thoughts of the Dalai Lama, but one so obviously loved by him, and who responds with a special kind of faithfulness, that a marvelous duet is often played out, only enhancing thereby this great teacher's magisterial presentation. I would add that one feels as well the 'Englishness' of the audience, so eager to quietly offer their accepting energy, so ready to listen, far more so than might be a gathering of Americans usually so conscious of themselves in the moment. The humor that ripples often between the Dalai Lama and his listeners throughout the evening is so generous and unaffected, one is returned again and again to the meaning behind the words, the experience behind the event. This is a film of the highest achievement, fortunately within the reach of us all. An unforgettable few hours!

In this small book His Holiness the Dalai Lama presents a completely comprehensive, easy to understand explanation and discussion on The Four Noble Truths, which are the foundation of the Buddhist teaching. Yet the book transcends religious beliefs and is actually a book on living happily and peacefully no matter what one's beliefs are. This book, therefore, is for anyone and everyone who is interested in living a more peaceful life. His Holiness explains the most complex issues of human existence in a form that is so simple anyone can understand. He readily gives examples and compassionately faces all alternative arguments to the issues. Everything makes sense. He includes a complete glossary and recommendations for further reading. The last chapter focuses on compassion, complementing the teaching on The Four Noble Truths, and beautifully illustrates how the teachings can be applied to daily life. One completes the reading with no unanswered questions and a profound feeling of peace. It is an inspiring, uplifting, informative little book that will be read over and over again. PS: Great for gift giving too.

These videos are a documentary of teachings on The Four Noble Truths presented by H.H. the Dalai Lama at Barbican Hall in London, with a translator on hand to help act as a go-between in the exchange. The Dalai Lama, as just about all Buddhist masters would agree, feels that The Four Noble Truths are the core of all of Buddhism. They are: 1. We suffer, not only active anguish but wide-ranging dissatisfaction and unease. 2. The origin of this suffer is our clinging, desire and attachments. 3. There is an End to suffering. 4. That pathway out of suffering is the Eightfold Path. Robert Thurman, America's foremost scholar on Tibetan Buddhism at Columbia University,

introduces the Four Noble Truths here. The Dalai Lama strikes a chord within all of us on this film with his succinct marking out of the Buddhist path of freedom, self-control, and compassion. I offer you a short review because of course the Dalai Lama will explain it all for you! Enjoy.
