## Customer Reviews

As usual, Barron's has done an excellent job with this PSAT/NMSQT study guide. Besides offering sound test-readiness suggestions, this PSAT guide explores essential information found within each section of the exam; includes practice materials for mastering these skills; explains the details of the

actual PSAT Exam; and then provides ample opportunity to practice for the exam with full-length practice exams, which include detailed explanations for each response. I recommend this book to all students who are preparing to take the PSAT/NMSQT Exam.
