# Vintage Cars: The Finest Prewar Automobiles

## Synopsis

Vintage Cars looks in detail at over 45 of the most collectible and desirable vintage cars from the UK, Europe, and America, providing a unique reference guide to the greatest pre-war automobiles ever built. Each car is presented in 5-view format with key technical innovations and styling features annotated including highlights of the powerplants. Lively text details the car's development and handling while a comprehensive specifications panel provides technical information. Lavishly illustrated with over 400 color photographs, this book will appeal to anyone with a love of the classic motoring era.

## Customer Reviews

Very nice pictures of a variety of cars. Not artistic photos like Dennis Adler presents, but clear photographs against a blank white background. Not a lot of substance in the written material, but the photographs are worth the price of admission. My one criticism involves the rather broad choice of cars. The cars are presented alphabetically, rather than being organized thematically. It would not have taken a great deal of effort to provide some sort of overview information that helped illustrate the evolution of car design within this period, rather than just present an apparently random collection of cars. Finally, I was hoping to see more of the glamorous cars from the 30s, and there were some surprising omissions (such as the Le Baron Cadillacs) from this period.

Bought this with a few other similar books as a Christmas gift for the pops, he's a huge car guy. It kept him busy for about half an hour, there isn't enough text or detail but they are a fun flip-through.

Great pictures!

Got this for a friend for christmas and it was in good shape- there were a few stains on it but i cleaned it before i gave the book to him so he didnt notice. It has nice pictures in it and seems very interesting ( i didnt read it)

good information on a variety of autos great history great pictures and details i like it alot thank you author

The 'high tech straight-eight' picture on page 73 should be interchanged with the 'supercharged superlative' picture on page 77 to reduce confusion; some confusion still exists in the page titles and text. Pages 74-75 are all about the model J, but the car shown is an SJ (unless specified otherwise the flex exhaust pipes go with the supercharged engine). Page 72 is titled model J, but the yellow car is an SJ. Aside from confusion in photo and text layout the grouping into five views, milestones, under the skin, and specs provides concise and useful info. RLB
