This book was a requirement for my Social Science class. Although the semester has not ended, I've enjoyed reading the book.

I know it's supposed to be broad, but it's pretty boring. Teaches the basic terminology and puts things into perspective, but is overall just an average textbook... that's all it is...

Book arrived on time. The text is up-to-date with current events. It explains the social sciences very organized in a detail way for the reader to understand.

Book in perfect condition. Shipping was lightening fast. Perfect for procrastinating college kids like me. Thank you!

I liked the book even though it was for a class and had a lot of information I thought it was pretty good.

Even though the pictures are not in color, this book is very well put together.

Great condition, brand new, exact one i needed for class, very long read tough

My daughter got this book at a much better rate than at the campus bookstore
